

# Lundbeck

Lundbeck is one of the only pharmaceutical companies in the world entirely focused on depression, schizophrenia, Parkinson's disease and Alzheimer's disease, and we have developed and marketed leading medicines for these diseases during the past century. Over the years, millions of people have been treated with our products and our development and distribution of pioneering treatments continues to make a difference to patients worldwide.

## VISION

We strive for a global leadership in **psychiatry** and **neurology** by improving the lives of patients.

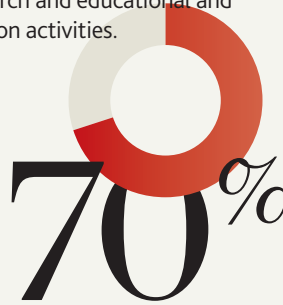

## GLOBAL PRESENCE

We are headquartered in Denmark and located in more than 50 countries.

## OWNERSHIP

Our largest shareholder is the Lundbeck Foundation, which holds approximately 70% of the shares. The Foundation annually grants about 500 million to support medical research and educational and communication activities.

## HISTORY

Lundbeck was founded by Hans Lundbeck more than 100 years ago in 1915 in Copenhagen.

## REVENUE

Our 2017 revenue reached DKK 17,234 million.
