November 22nd, 2012

Attention: Health Care Professionals

### **Re: Important Changes to Fluanxol® Tablets**

Dear Customer:

In an effort to ensure the ongoing quality of the medications that Lundbeck Canada provides to patients, we would like to announce some important changes in the composition, appearance, storage temperature range and product codes of Fluanxol tablets 0.5 mg and 3 mg.

The change in appearance is illustrated in the drawings on page 2. In addition to this change, the coating and composition of the tablets have been modified and approved by Health Canada. Please note that these changes do not impact the dosage of Fluanxol tablets.

On November 26, 2012, Lundbeck Canada will begin shipping the new Fluanxol tablets 0.5 mg and 3 mg to distributors with the changes outlined below. Distributors will utilize their inventory of the current Fluanxol product before they begin shipping product with the new UPC codes to pharmacies.

Please note that the changes to the outer packaging for Fluanxol 0.5 mg and 3 mg will be minimal. The only changes will be a new UPC code and storage temperature range.

Product Flupentixol	DIN (No change)	Discontinued Product Code	New Product Code (Upon depletion of discontinued product)	Discontinued UPC Code	New UPC Code (Upon depletion of discontinued product)
Fluanxol 0.5 mg 100 tablets	02156008	31512150	125202	6-26873-12150-7	6-26873-25202-7
Fluanxol 3 mg 100 tablets	02156016	31512215	125203	6-26873-12215-3	6-26873-25203-4

**STORAGE TEMPERATURE RANGE IS NOW 15°C TO 25°C**

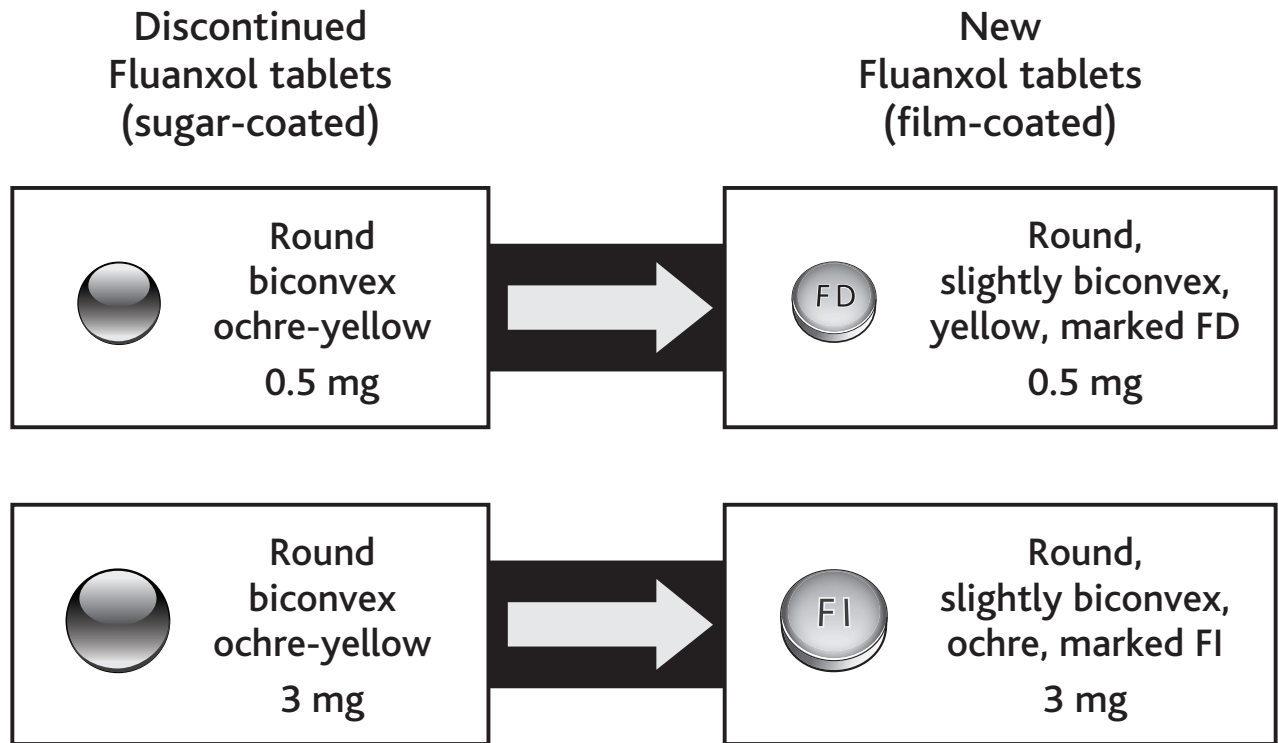

These changes are being made so that Lundbeck Canada can continue to provide patients with the same high quality medication as always.

We thank you for your cooperation during this transition. Should you have any questions, please contact our **Medical Information Service** at 1-866-880-4636.

Sincerely,

Nina Courchesne  
Manager, Medical Information and Pharmacovigilance  
Lundbeck Canada Inc.
