

LUNDBECK

Lundbeck is one of the only pharmaceutical companies in the world entirely focused on depression, schizophrenia, Parkinson's disease and Alzheimer's disease, and we have developed and marketed leading medicines for these diseases during the past century. Over the years, millions of people have been treated with our products and our development and distribution of pioneering treatments continues to make a difference to patients worldwide.

VISION

We strive for a global leadership in

psychiatry and neurology

by improving the lives of patients.

HISTORY

Lundbeck was founded by Hans Lundbeck more than 100 years ago in 1915 in Copenhagen.

GLOBAL PRESENCE

We are headquartered in Denmark and located in 55 countries.

OWNERSHIP

Our largest shareholder is the Lundbeck Foundation, which holds approximately 70% of the shares. The Foundation annually grants between DKK 400-500 million to support medical research and educational and communication activities.
